Supplier Diversity Policy Statement

Great State Health System Supplier Diversity

Engagement with Great State Health offers suppliers increased efficiency, visibility and credibility. Our encouragement of a diverse supplier base is especially important for certified diverse suppliers who are looking to expand their portfolio by offering comparable products at more competitive prices.

To this end, Great State Health's Supplier Diversity program maximizes opportunity, cultivates collaboration and offers mentoring and enrichment for diverse suppliers and small businesses. Encouraging the growth and development of diverse businesses promotes economic sustainability in all our communities.

How Supplier Diversity Helps Great State Health

Our Supplier Diversity Program helps members attain their purchasing, healthy community and economic development goals through a comprehensive offering that includes:

- **Supply contracts with certified diversity suppliers**
Our portfolio of product and service agreements offers members greater choice and drives competition on price, quality, innovation and service. This enables them to foster a supply chain that mirrors the diversity in their own workforce and patient populations.
- **Data and analytics support**
Our information platform offers exclusive access to not only Tier 1 but Tier 2 diversity spend data, as well as a means to connect with national, local and community diverse suppliers. Optional enhancements enable access to economic impact reporting, data enrichment, risk monitoring and much more.
- **Advisory services**
Our expert consultative team can help health systems and hospitals develop, implement and enhance their own supplier diversity program through a highly customized, long-term strategy. The engagement could encompass spend analysis, goal setting, development of best sourcing practices and solutions to meet other organizational needs.
