

ENHANCED DIGITAL CERTIFICATION

The SupplierGateway **Enhanced Digital Certification (EDC)** is a new, fast and inexpensive way for small and diverse businesses to get certified as diverse owned organizations while at the same time exposing them to new opportunities afforded by being in the SupplierGateway network.

The EDC's advanced technology enables diverse-owned businesses to efficiently establish and attest to at least 51% ownership, management, and control by quickly validating multiple factors.

THE EDC PROCESS

FAQ

Who is eligible to become certified?

Any bona-fide US Citizen Owned Business that is 51% owned, managed and controlled by one or more of the included diversity categories (Minority, Woman, Veteran, Disability, LGBT) is eligible to get certified. Non-US EDC categories vary from country to country.

What type of diverse businesses does EDC certify?

The EDC process recognizes all types of diverse businesses including minority-owned, women-owned, veteran-owned, LGBT-owned and disability-owned businesses.

Are EDC certifications automatically renewed annually?

No. Renewal is not automatic but will take a few minutes to renew, just as the initial certification does. The process needs an update of all documents' required submittal, renewal of attestations and the digital identity verification process.
